

Past Scholarship Recipients

SASHA-GAYE WRIGHT-WHITE TESTIMONIAL

I am Dr. Sasha-Gaye Wright-White. I graduated from Clarendon College in July 2007. During my 7 years at Clarendon College I was a recipient of the South Florida Chapter scholarship for 6 years. The scholarship impacted on my life in more than one way, firstly of course I was never without the necessary materials I needed for school especially my textbooks. That helped me to be always prepared for classes and do my assignments in a timely fashion. It provided me with a support family that included not just the members of the chapter but also other recipients of the scholarship were family, we bonded together. I was comfortable to call Dr. Broderick-Scott and Mrs Bethany Jones-Powell mommy. I also knew I had other family members unseen to my eyes who are working towards our success. It's also motivating because I knew someone invested in my education so I had to work hard for them to see the profit of this investment. I am a Medical Doctor, currently pursuing my graduate education in Haematology and Oncology at the University of the West Indies.
