

Past Scholarship Recipients

SHEIKA HENRY TESTIMONIAL

I graduated from Sixth Form in 2004. I am honoured to have been one of the recipients of the CCAASF Scholarship in 2002. As a result of your generous support, I was able to commence my Lower Sixth Form education at Clarendon College even though I had experienced grave financial difficulties. Emanating from a poor background resulted in major economic and personal challenges. However, it also provided me with the ability to realize the importance of a solid education as the vehicle out of poverty. The scholarship therefore assisted me to be one step closer of achieving my goals and to learn the importance of giving back to the less fortunate. Once again, thank you for your assistance. This association has truly left an indelible mark on my life. Currently, I am a final year PhD Student within the Department of Geography at The Federal University of Parana in Brazil. Upon completion of my studies, it is my dream to become a consultant in disaster management and climate change as well as becoming a lecturer.
